EXHIBITION OF NERVE

Displayed by Spain In Peace Instructions

ABOUT THE PHILIPPINES.

A Veiled Threat to Limit Authority of the United States.

A BID FOR EUROPEAN SUPPORT.

American Peace Commissioners Are Said to Have Been Advised to Consider Claims of Insurgents With View of Giving Them Control.

Washington, Sept. 28.—The freedom with which the Spanish minister for foreign affairs, the Duke Almodovar del Rio has given publicity to the instructions to the Spanish peace commissioners as to the disposition of the Philippines has given rise to the suspicion among the officials here that there is behind it a deliberate purpose to draw out in advance the position of the American commissioners.

It is noted now that heretofore the Spanish government has waited upon the United States government to make each of the steps towards final peace before making a move on their side, so that this sudden change in policy is accounted for only on the ground stated.

There is beside this apparent purpose a veiled threat in the last instruction, not under any circumstances to allow the United States to interfere with any disposition of the island outside of those retained by the United States, such as Luzon, that Spain may see fit to make.

This is believed to be an invitation to some of the continental powers to step forward in support of Spain in this extremity in the hope of receiving as a quid pro quo some one of the Philippines as a coaling or naval station.

Although the American peace commissioners have so far successfully resisted all attempts to ascertain the exact nature of their instructions something is known of their general character, and it may be stated on this point of the final disposition of such of the Philippines as are not held by the United States that while the president has nowhere directly admitted any obligation to the insurgents, yet so long as they carry out their part and a void a rupture with our forces at Manila, he feels that any arrangement that may be made by the peace commission for the final disposition of the islands, the insurgents shall not be placed at the mercy of the Spanish government without guarantee for their proper treatment.

By an extension of this same view, it is unlikely that he would care to allow them to be turned over to another power that might oppressively treat them, especially without the consent of the natives.

Then there are, as the naval experts have pointed out, strong strategic reasons why the United States should refuse to sanction the cession of any of the Philippine islands to any other nation to serve as a naval base. It has been explained to the American peace commissioners that by the possession of the island of Luzon on the north and the island of Palawan on the south the United States would control the great gateway for the large traffic that passes between China and Australia, as well as the myriad islands of the South Pacific.

Santiago de Cuba, Sept. 28.—Major General Wood has formally completed the organization of a rural police force for Santiago province. It is based on the Mexican rural system, half civil and half military. There will be mounted privates with non-commissioned officers and the lower grades of officers—Cubans—and officers of the higher grades—Americans. For arms they will have machetes, carbines and revolvers. Recruits must pass a strict physical and mental examination and must be of good character and take the oath acknowledging the supremacy of the United States.

Soldiers of the Cuban army who voluntarily surrender their arms take the oath and pass the examination, will have the preference.

The force is to be broken up in detachments, stationed in the central part of each district of the province. Each detachment will be under the command of an American officer. Ray of privates will be the same as that of soldiers in the American army. Officers' pay has not yet been fixed.

Auction Sale of Condemned Horses. Chattanooga, Sept. 28.—An auction sale of 800 horses and 200 mules, all

condemned army animals, is now being conducted at Chickamauga. The animals were used by the army during the summer and were condemned because the government had no further use for them. A large number of stockmen are present at the sale, and the bidding is lively. The prices range from \$20 to \$80.

Moving of Troops to Cuba. Washington, Sept. 28.—A comprehensive program for moving troops to Cuba has been outlined by the war department, and its initial features have been decided upon. Major General Miles outlined a plan for sending two divisions to Cuba, the first under command of Major General Wade, to leave in October, and the second under Major General Fitzhugh Lee, to leave in November. Each division will embrace about 6,000 men, so that the plan is to have some 12,000 troops in Cuba or on the way there within the next 60 days.

Fresh From Philippines. Washington, Sept. 28.—General Francis V. Greene, who was made a major general of volunteers for distinguished services in the Philippines, accompanied by his personal staff and the delegates from the Philippine insurgents, arrived here from Chicago and went to the Arlington hotel. The two Filipinos are Felipe Agoncillo and Jose Lopez. They are the personal representative of the insurgent Aguinaldo, and are on their way to Paris to secure representation on the Spanish American peace commission with a view to the recognition of the insurgent government in the Philippines.

Court-martial of Chaplain McIntyre. Denver, Colo., Sept. 28.—The court-martial of Rev. Joseph P. McIntyre, chaplain of the battleship Oregon, on the charge of scandalizing the navy in a lecture delivered in Denver August 8 was resumed. Miss Minnie J. Reynolds, who reported the lecture for the News, was called to verify the report published, and from which the extracts contained in the charges against Chaplain McIntyre, were taken. She fully corroborated the report she had written and which was introduced as testimony.

Food For Cubans. Washington, Sept. 28.—When asked what action was taken by this government upon the appeal sent by General Gomez, Acting Secretary McKeljohn said that the landing of the stores of the Comal was a reply to that appeal. It is expected that the Comal will begin unloading stores at Matanzas, and this cargo will be followed by others as the necessity develops. No food will be distributed to men under arms, so that the force under Gomez must subsist before receiving supplies.

Colored Heroes of Santiago. Cleveland, Sept. 28.—The Twenty-fourth United States infantry, the colored regiment which fought so gallantly and conspicuously at the battle of San Juan hill and Santiago, passed through Cleveland en route from Montauk Point to army posts in the far west. The men, one and all, claimed they were being excellently treated by the government and always had been. A number of those wounded at Santiago who had recovered were on the trains.

Battleships For Dewey. New York, Sept. 28.—The battleships Oregon, Captain A. S. Barker, and Iowa, Captain Silas Terry, received orders at the navy yard to sail Wednesday for Manila. It is expected that it will take the battleships 60 days to complete the journey. The cruiser Buffalo, accompanied by two store ships, the Iris and Celtic, is expected to follow the Iowa and Oregon soon.

Will Be Received Separately. Paris, Sept. 28.—President Faure will receive the members of the American and Spanish peace commissions separately during the day. In the morning the American commissioners will visit the grounds of the Paris exposition of 1889 in company with Ferdinand W. Peck, the American commissioner to the exposition.

Approved Dewey's Action. Washington, Sept. 28.—The official account of the seizure by Admiral Dewey of the filibustering steamer Abasco, as reported in the press dispatches, is confirmed in a cablegram received at the navy department from the admiral at Manila. The navy department very promptly approved Admiral Dewey's action.

Held No Meeting. San Juan de Porto Rico, Sept. 28.—The American evacuation commission did not meet again. The future operations of the commission will probably be confined to matters connected with the evacuation of the island and to decisions regarding the possession of property of the Spanish government.

Action of Independents. New York, Sept. 28.—It was announced at the headquarters of the Citizens' union that the independents would nominate no successor to Colonel Roosevelt until October 15.

EASY FOR ROOSEVELT.

Nominated For Governor on the First Ballot.

BLACK MEN FALL INTO LINE

New York Republicans Select a Hero of the Santiago Campaign For Their Standard Bearer In gubernatorial Contest.

Saratoga, N. Y., Sept. 28.—The Republican convention nominated the following ticket:

Governor, Theodore Roosevelt of Oyster Bay; lieutenant governor, Timothy L. Woodruff of Kings; comptroller, William J. Morgan of Erie; secretary of state, John T. McDonough of Albany; state treasurer, John B. Jaekel of Cayuga; state engineer, Edward A. Bond of Jefferson; attorney general, John C. Davies of Oneida.

The names of Governor Black and Theodore Roosevelt were presented for governor. At 7:15 p. m. Secretary of State Palmer moved a roll call, and the motion was adopted.

Before it got through the New York delegation it was evident that Mr. Roosevelt had a practical walkover and at 7:36 enough votes had been cast to nominate him.

At 7:41 the roll call was completed, and the vote was announced as follows: Roosevelt, 753; Black, 218.

Then the auditors and the delegates rose in a great mass and cheered. Judge Cady got the floor and moved the unanimous nomination. While the question was pending Senator Krum, who had supported Governor Black, said: "On behalf of Governor Black and his friends I will say that they will stand by Theodore Roosevelt as he stood by the country."

The nomination was made unanimous, and at 7:46 the convention stood in recess until 9 o'clock, when the platform was adopted and the remainder of the ticket was nominated, all but Davies being nominated by acclamation.

The following committee was appointed to be the advisory board for the state committee: Thomas C. Platt, Chauncey M. Depew, Frank Hiscok, Edward Lauterbach and Frank S. Witherbee.

The old eagle emblem was readopted for the party, and the convention adjourned sine die.

Dreyfus Revision Denounced.

Paris, Sept. 28.—The Rightist senators and deputies passed resolutions denouncing the Dreyfus revision. The former declared that the government's revision was taken in spite of the resignation of two ministers of war and the vote of the chamber of deputies, and condemned the ministers for not convoking parliament and for disregarding the army's honor. The deputies of the Right party declared the government had violated its pledges not to agree to a revision, in virtue of which the chamber voted confidence in the ministry, condemned the cabinet for changing the Dreyfus affair from a judicial to a political question and demanded the convocation of parliament.

Graham Will Retire.

Washington, Sept. 28.—Major General William Graham, United States volunteers, commanding the Second army corps, comprising the troops encamped at Middletown, Pa., will go on the retired list of the regular army with the rank of brigadier general by operation of law on account of age. He will continue in his present command regardless of this fact, however, at least until the abandonment of Camp Meade on account of cold weather.

AT THE POINT OF GUNS.

A Freight Conductor Is Forced to Shell Out to Four Tramps.

Elyria, O., Sept. 28.—A freight train was held up near here and Conductor Bure Null robbed. He started from the caboose for the head end of the train, and was suddenly halted by four men, who thrust revolvers under his nose and told him to hand over his valuables. Null promptly gave the tramp highwaymen his gold watch and \$3, all the valuables on his person.

The men then ordered him to proceed on his way toward the engine, and by way of punctuating their remarks fired their revolvers several times. The tramps then cut the train in two and started back for the caboose to find the rear brakeman. The brakeman, however, heard the shooting and, surmising what had happened, hustled for the caboose and locked himself in. The highwaymen, discovering their defeat, fired several shots at the brakeman, but without effect. The bandits then jumped from the train and escaped in the woods. The trainmen were unarmed.

Rich Find of Coal on the Yukon.

Port Townsend, Wash., Sept. 28.—Favorable reports from Minook district are brought by Captain Robert J. Dunham of the river steamer Rideout. He says that a number of new strikes along the creeks in that district are reported, and the prospects are most favorable. He also reports the discovery of two veins of coal on the Yukon river about 700 miles from its mouth. The coal is being mined and sold to the steamers at \$25 per ton. It will render navigation on the river much cheaper, as wood is scarce and expensive. During the trip up the river the steamer paid \$4,700 for wood. The coal is easily mined, one man being able to take out from five to seven tons a day.

Lost in the Klondike.

Seattle, Wash., Sept. 28.—Out of a party of 26 men that left San Francisco early in the year to go to Dawson via the Stikine trail, Herman Long of this city is the only one that pushed through. Two out of the number were drowned, two are insane and the others are far in the interior regaining their health at trading points. In the swift Chesley river in the North rivers seven of their boats were dashed to pieces on the rocks and the outfits were lost. In two of the wrecks Dr. Black and a man named Morgan, both from California, were drowned.

Socialists Will Have a Place.

Topeka, Kan., Sept. 28.—The Populist state authorities have advised that the state ticket recently nominated by the Socialists shall be given place on the official ballot. The campaign managers of the Populist fusionists have opposed such action. They have insisted that a majority of the 2,500 signature by which the Socialist ticket is backed up are the signatures of well known Republicans, and that the application of the Socialists was not made in good faith, the sole object of the ticket being to divide the fusionists.

Was He Poisoned?

Springfield, O., Sept. 28.—Coroner Schafer has decided to hold an inquest into the cause of death of Patrick Bolan. Dr. Bell, after reading Chemist Simonson's report, notified the coroner he believed deceased's death was due to slow poisoning. The coroner has consulted other physicians, all of whom do not agree with Dr. Bell. Mr. Bolan was very wealthy and died suddenly.

From the Gold Fields.

Port Townsend, Wash., Sept. 28.—The steam schooner Fulton has arrived from St. Michaels, having encountered severe gales during the voyage. She brought 59 miners from nearly every mining district in Alaska and among the crowd, according to the statement of the purser, there is between \$80,000 and \$100,000 in gold dust.

Mrs. Belmont Dies Abroad.

Washington, Sept. 28.—Special Agent Murray, in charge of the Seal islands, reports that during the past season 18,047 skins were secured. This is a decrease of about 3,000 in the number taken in 1897. He reports a general decrease in the seal herds.

STATE'S ATTORNEY ACTS.

The Principal in the Shocking Death of Emma Gill Believed Now to Be Within Reach of Officers of the Law.

Liverpool, Sept. 28.—Detectives awaited the arrival here of the steamer Vancouver from Montreal.

Upon the landing of her passengers they followed a woman who came ashore from the steamer. The officers maintain the greatest secrecy regarding this person.

The woman boarded a train for London, Inspector Lamoine following her in the next compartment with instructions to arrest her if she went to a house which the Canadian police had informed the English authorities would probably be the destination of the murderer.

It is reported in New York that the woman known as Dr. Nancy Guilford of Bridgeport, Conn., has been arrested in Liverpool, charged with being concerned in the murder of Emma Gill of Southington, Conn., whose body, cut into several pieces, was found some time ago in the Yellow Mill pond, near Bridgeport, Conn.

State's Attorney Acts.

Stamford, Conn., Sept. 28.—State's Attorney Fessenden immediately on learning of this supposed arrest of Mrs. Guilford in London, communicated with Governor Cook, and upon his request the governor asked the state department at Washington to have the United States embassy at London arrange for the provisional arrest of the woman until the requisition papers could reach there. Mr. Fessenden said he has since learned that the state department had cabled London as requested.

Many Disapproved.

Washington, Sept. 28.—The mission of Colonel Bryan, commanding the Third Nebraska infantry, to Washington for the discharge of a number of enlisted men of that regiment who desire to leave the military service and return to their homes, has so far been only partially successful. There have been 75 of these applications received at the war department. They all come through the regular channels. While all of them were approved by the regimental officers, including the colonel commanding, the majority of them were disapproved by either the brigade division or corps commander. So far but fifteen of the applications have been favorably acted upon, and the discharge of the men ordered.

Owes St. Louis a Visit.

Washington, Sept. 28.—Mr. Richard Kerens obtained a promise from the president today to visit St. Louis on his western trip. The promise was coupled with the conditions that the stop could be made either going to or coming from Omaha, and that it should not interfere with the president's arrival at either Omaha or Chicago on schedule time. Mr. Kerens used the argument that the president owed a visit to St. Louis because it was there that he received his nomination.

Dawson Situation Desperate.

Port Townsend, Wash., Sept. 28.—All arrivals from Dawson during the past month have reported the health conditions in Dawson as something most deplorable, and a death rate ranging from 5 to 17 per day. It is estimated that about 9,000 people joined the rush to Stewart river. Nearly every foot of available ground has been prospected, but no gold was found.

Protest Against Removing Remains.

New York, Sept. 28.—This telegram was sent to President McKinley by the Cuban-American league: "The Cuban-American league believes that it voices the earnest wish of the people of both the United States and Cuba when it urges you not to permit Cuba's most interesting and sacred relic—the remains of Christopher Columbus—to be removed from America."

Mrs. Bryan Summoned.

men of this locality are said to be heart-
ily in favor of the Government building

the city a harbor all the year round, and
when completed, another will be asked
for at Madison, which will make naviga-
tion between Cincinnati and Louisville
continuous throughout the year.

PHILLIPS-McCLURE.

Bethany Church, Near Springdale, the Scene
of a Pretty Wedding Monday
Morning.

The marriage of William Phillips and
Miss Cora McClure was solemnized at 9
o'clock Monday morning at Bethany
Church, near Springdale.

The house was beautifully decorated
with two evergreen arches artistically
arranged and bedecked with beautiful
flowers. The chandeliers were also cov-
ered with flowers and evergreens, all
showing the handiwork of the fair hands
and ingenious brain of Cabin Creek's fair
ladies.

The house was full by 8:30, but the
ushers, Arthur McNutt, Lew Holt, James
Vawter and Mr. Sherwood, succeeded in
finding accommodations for all.

The bride was dressed in cream-colored
cashmere trimmed in white silk, and
looked the personification of purity be-
fitting the bride of a minister. The
bridesmaids, Misses Annie Hughes and
Savannah McClure, were dressed in white
Swiss and looked lovely enough to endan-
ger the hearts of the groomsman and
other young men present. The grooms-
men, Charles Vawter and Andrew Mel-
drum, were faultlessly dressed in black
cloth, as was also the groom.

The ceremony by Elder Hannah was
very impressive and solemn. The groom
is a young Christian minister, whose life
among the people of that section has been
one of good works. The bride has been
one of the foremost workers in the church,
in the Sunday school, in the Woman's
Aid Society and is worthy the high call-
ing of preacher's wife.

HELLO!

No More Required to Attract Attention to
Your Phone Under a New
Invention.

CHICAGO, September 25.—By the applica-
tion of the laws of harmonics to the
construction of the telephone a new in-
strument called the ventrilophone has
been invented, by means of which the
human voice, music and other sounds
can be transmitted with nearly the in-
tensity of the original sound.

The ventrilophone's chief advantage
lies in the fact that it is not necessary to
shout into a transmitter and listen atten-
tively with receiver at the ear, as in the
case of the ordinary telephone. The
speaker can stand in any part of the
room and his voice will be carried to the
other end of the line with enough force
to be plainly heard. No bell is neces-
sary to attract the attention of the per-
son to whom he wishes to speak.

Mr. Robbins, the inventor, has applied
for a patent for the ventrilophone, and as
soon as it is secured will start its manu-
facture in this city.

Brothers' Bitter Fight.

WEST UNION, O., September 27.—Tissue
and John Satterfield, brothers, living on
adjoining farms, and two of the wealth-
iest farmers in Adams County, have for
more than a year been engaged in a law-
suit over the ownership of a small strip
of land on the line between their farms,
and have already expended in litigation
several times the worth of the land. Re-
cently Tissue had his brother enjoined
from using the land in dispute and built
upon it a line fence, whereupon John de-
stroyed the fence. Tissue had his brother
arrested and the latter was indicted by
the grand jury Saturday for malicious
destruction of property.

THE case of the Commonwealth against
the Western Union Telegraph Company,
which was on the docket for trial at this
term of the Franklin Circuit Court, was
this week settled out of court by the pay-
ment into the State Treasury of \$4,648.81,
the amount sued for. The money paid
was due for franchise taxes assessed for
the years 1895-96, and not paid.

REV. FRED GRIDER, of the Methodist
Church, at College Hill, Madison County,
has been challenged to public debate by
Rev. H. L. McMurry, pastor of the Berea
Missionary Baptist Church, to discuss
two propositions, and has accepted both.
First, is sprinkling a Bible-made baptism?
Grider affirms; McMurry denies. Second,
are Missionary Baptist churches the only
true churches on earth? McMurry af-
firms; Grider denies. The debate will
be held near Berea, beginning October
18, and continue five days. Rev. G. W.
Young has accepted the call to act as
moderator for Grider.

Black Goods Bargains.

CREPONS have all seasons for their own. These billowy blacks in their
hundred variations are so entrenched in popular favor they're leaders among the
autumn stuffs. But despite that fact we've clipped the prices of the Crepons now
here until Dress Goods elegance was never so easily bought. Comparative prices
follow:

75 French All Wool Crepon,	50
\$1 00 Mohair Stripe Crepons,	75
1 35 Mohair Figured Crepons,	\$1 00
1 50 Mohair Blister Crepons,	1 25
1 75 Silk Etamine Crepons,	1 50
2 25 Mourning Wear Crepons,	1 75

THINK of such a collection of a single fabric. Think of the broad smile of
fashion's favor that inspired such gathering. Think of the completeness of our
stock when just one dress goods idea is so widespread.

WHEN a man owns a blooded horse he is always
careful of its health. He looks after its diet and
is particular that the feeding shall be regular
and right. While he is doing this it is likely as
not that he is himself suffering from some disease
or disorder. When the trouble gets so bad that
he cannot work, he will begin to give himself
the care he gave the horse at the start. Good
pure, rich, red blood is the best insurance against
disease of any kind. Almost all diseases come
from impure or impoverished blood. Keep the
blood pure and strong and disease can find no
foothold. That is the principle upon which Dr.
Pierce's Golden Medical Discovery works. It
cleanses, purifies and enriches the blood, puts
and keeps the whole body in perfect order; makes
appetite good, digestion strong, assimilation per-
fect. It brings ruddy, virile health. It builds
up solid, wholesome flesh (not fat) when, from
any cause, reduced below the healthy standard.

Two of Maysville's old and esteemed citizens celebrated their birthday last Saturday.—Mr. William Davis his eighty-second, and Mr. John G. Hickman his seventy-ninth.

The survey for the extension of the Cincinnati, Georgetown and Portsmouth road from Georgetown to West Union is well under way, and the engineering corps expects to complete the work by next Saturday. It is said that work will be commenced soon on the extension, and it will be pushed to completion.

The inhabitants of the Nicobar islands, a group in the Indian ocean, have an extraordinary fancy for old hats, and a regular trade in such cast off headgear is carried on between Calcutta and Nicobar, the much desired headpieces being paid for in cocoanuts. A tall chimney pot is the favorite among the Nicobarians, and the acme of fashion is considered to be a high white hat with a black hatband. This is worth from 50 to 60 cocoanuts, and is worn by the Nicobarian dandy when he goes out fishing, the rest of his attire consisting solely of a waistcoat.

A Bismarck Duel.

A duel in which Bismarck was once engaged had a very amusing origin. It occurred when he was chief secretary of the Prussian legation at Frankfurt. He went much into society, and one Christmas attended a big ball. During the height of the festivities Bismarck's attention was directed to an exceedingly pompous individual who strutted about the room. This was a M. de Clancy, a noted French duelist. Later on this important individual took part in a dance, but having omitted to leave his hat at the proper place had perforce to hold it out almost at arm's length while he danced. The spectacle tickled Bismarck immensely, and as the Frenchman came sailing majestically along Bismarck stepped forward and dropped a coin into the hat. A duel was one of the next day's events. Though it was with pistols Bismarck escaped unhurt, while his adversary was wounded.

YANKEES IN HAVANA.

SOME PRIMITIVE BUSINESS METHODS THEY WILL REFORM.

The Manana Habit Will Be Out of Date When the American Department Store Gets to Havana—A Struggle Ahead For the Spanish Shopkeeper.

Crude and antiquated are the business methods of the Havana shopkeeper of today. Six months from now, perhaps less, they will have been brought down to date, or else the shopkeeper will have gone out of business. The rush of American capital which has already started for Cuba will center in Havana. In its train will come American business methods, which are neither crude nor antiquated. If the Spanish merchant can adopt them promptly, he may remain in the race. If he cannot, he will soon be forced to drop out.

The Havana milkman, for instance, will soon be forced to abandon his primitive

method. Today he is a picturesque institution. He drives his cow about the streets and milks a quart or a pint before the house of each customer, as desired. It will not be long before the Havana Milk company will be running brightly painted wagons about the city, delivering milk in bottles. I do not know that such a company has yet been formed, but I am reasonably sure that such a one will be.

The Havana baker, who now carries his freshly baked loaves about in a basket balanced on his head, will have to give way to an American baker's cart, probably driven by an American driver ringing an American gong.

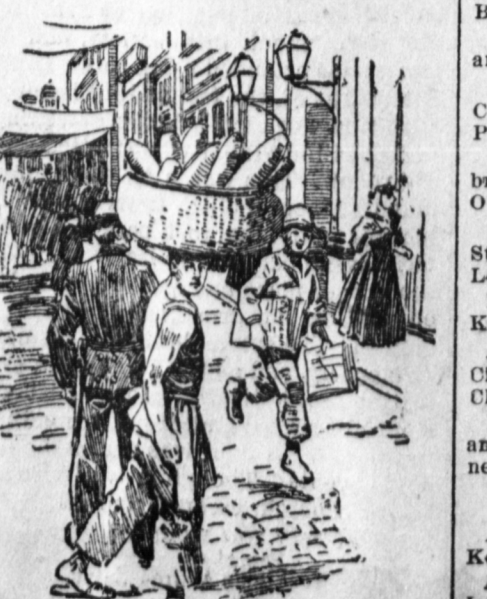

The Havana dealer does not yet know what a "bargain day" is like, but just wait until the first American department store is established there! The senoritas will then have a new motive for living, and perhaps the excitement of struggling at the shirt waist counter during a "marked down" sale will fully make up for "closed by order of the provisional government" sign which will soon be hung on the gates leading to the bull ring.

In managing his business the Spanish shopkeeper or merchant is patriarchal. His clerks and employees sit at the family board and they sleep in the store or shop. It is an economical arrangement on both sides. The wages are smaller, but the clerks can save more than if they had to provide for their own keeping. The best of feeling prevails between the employer and his employees. Though the hours of the latter are long, they are privileged to rest during the dull spells of the day. The Havana clerk of the immediate future will find himself working full time with no play spells or midday siestas.

In Havana shops both master and men are uniformly civil to customers. There may be a tinge of servility in it, as there is in most of the courtesy shown in Latin-American countries, yet this does not detract from the satisfaction it gives. All are shrewd bargainers. They will haggle hours over a small difference in price and will wait for the prospective buyer to return another day sooner than yield the profit which they think can be had by holding out. It is a practical application of the "manana" habit. If the customer won't buy today, tomorrow will do. But this is not the American way, and it will have to go.

The shrewdest merchants of Havana are said to be Catalans. Here, as in other parts of Cuba, much of the business is in their hands, though the Asturians have a share. Many of the methods of business are primitive. I have been told that some of the leading houses of Havana get along without any system of bookkeeping.

There has been much talk about the threats made by Spanish merchants of abandoning Cuba. But they will never

do it. The motive that will keep them there is the motive that obtains the world over. The Spanish merchants and

property owners can make more money in Cuba than they can elsewhere. They know that if they move out others will come in to take their places. When the Americanization of the island begins and the rush from the United States takes place, there will be a revelation of the degree to which the Spanish property owner is rooted in Cuban soil.

PLUNDER A BANK.

Frankfort, Ind., Sept. 28.—The bold and one of the most successful bank robberies that ever occurred in this section of the state was perpetrated at Flora, a small town ten miles north of this city at daybreak. The bank is a private corporation, with William Lannum acting as cashier.

He was awakened by the noise of a terrific explosion, which shattered the windows in his residence, fifty yards from the bank. Getting up and going to the bank, which was a brick building, he found the entire building demolished. As he started inside he was fired upon by some unknown party with a shotgun, the charge taking effect in his face and blowing out one eye.

The noise of the explosion aroused the town, and a great crowd collected. It was soon learned that the bank safe had been blown to pieces with dynamite, pieces of it having been blown across the street. The robbers secured between \$10,000 and \$15,000.

Cashier Lannum will probably die. The robbers made their escape upon a handcar, which they left at Sedalia, five miles north of here. The whole country is aroused and the robbers will hardly escape.

Committed Suicide.

Vancouver, B. C., Sept. 28.—Returning Klondikers report that Sir Arthur Curtis, the English baronet, who mysteriously disappeared last spring while en route to the Yukon via Ashcroft committed suicide. Sir Arthur, so the story runs, worn with hunger and the hardships of the trail, and much annoyed over a personal encounter with one of the party, went into the mountains and drowned himself in a mountain stream. His coat and hat were found in this stream.

Guns Returned.

Havana, Sept. 28.—The guns which were taken ashore from the Spanish cruiser Alfonso XII during the blockade of this port by the American fleet and which were placed in the Reina battery, have been returned on board that vessel and remounted.

Next Philippine Expedition.

San Francisco, Sept. 28.—It now looks as if it would be November 1 before the navy expedition can leave for the Philippines. None of the transports due here have arrived, though they may put in an appearance at any moment.

New War Minister.

Lima, Peru, Sept. 28.—Senor Jose R. Puente was named for minister of war and took the oath of office.

Paris, Sept. 28.—At the cabinet council the minister for foreign affairs, M. Delcasse, read a telegram from General Sir Henry Kitchener, the British commander on the Nile, which had been communicated to the French foreign office by the British ambassador here, Sir Edward J. Monson. It was worded as follows: "Met at Fashoda, September 19. Marchand flying French flag. Marchand arrived July 10 with eight officers and 120 Soudanese Tiers-alleura."
